

Important Notice – Visa Application Centre at the British Mission in Copenhagen – Future Service Closure and Service Restrictions

Please note that due to major IT maintenance, scheduled at the British Mission in Copenhagen at the middle of June 2009, service levels in the visa application centre will be effected.

On Monday 15th, Tuesday 16th and Wednesday 17th of June the visa application centre will be closed to the public, meaning that normal visa applications will not be accepted or dealt with on those days.

On Thursday the 18th and Friday the 19th of June, the visa application centre will re-open but will only be able to offer a restricted service.

Restrictions on service levels may have to remain in force for a period of up to approximately two weeks after these dates. We recommend, therefore, that visa customers submit their applications for visas in good time. More specifically we recommend that if you wish to travel in at the end of June or in July 2009, and require a UK visa, that you submit your application at the beginning of June.

Throughout this period our usual processing times may have to be extended. We apologise for any inconvenience that these restrictions may cause but the IT maintenance is essential.
